

JANUARY

GASTROINTESTINAL CANCERS SYMPOSIUM **Science and Multidisciplinary Management of** **GI Malignancies**

January 22-24, 2010

Orlando World Center Marriott, Orlando, Fla.

The 2010 Gastrointestinal Cancers Symposium is the premier GI oncology event, offering the most up-to-date strategies in prevention, screening and treatment of GI cancers. This three-day multidisciplinary symposium offers educational sessions and abstract presentations focused on cancers of the esophagus and stomach; pancreas, small bowel, and hepatobiliary tract; and colon and rectum.

The symposium is co-sponsored by AGA, ASCO, ASTRO and SSO.

Visit www.gicasymposium.org for additional information.

FEBRUARY

Multidisciplinary Head and Neck Cancer Symposium

February 25-27, 2010

Sheraton Wild Horse Pass Resort and Spa, Chandler, Ariz.

This symposium will present cutting edge advances in the diagnosis and treatment of head and neck cancer. In addition, oncologists and healthcare providers will have the opportunity to consider current standards of care, as well as recommendations for optimizing supportive care approaches for this complex cancer population. *The symposium is co-sponsored by AHNS, ASCO, ASTRO and SNM.*

Visit www.headandnecksymposium.org for additional information.

MARCH

GENITOURINARY CANCERS SYMPOSIUM **Progress in Multidisciplinary Management**

March 5-7, 2010

San Francisco Marriott, San Francisco

The 2010 Genitourinary Cancers Symposium is the preeminent GU oncology event, offering the latest strategies in screening, diagnosis, treatment, management and controversies in the field. This three-day multidisciplinary symposium offers educational sessions and abstract presentations focused on prostate, renal, urothelial, and rare GU cancers. *The symposium is co-sponsored by ASCO, ASTRO, and SUO.*

Visit www.gucasympodium.org for additional information.

Advocacy Day

March 21-23, 2010

**Hyatt Regency Washington on Capitol Hill,
Washington, D.C.**

Learn about key legislative issues and advocate for your specialty by participating in Advocacy Day. This two-day conference provides one day of training and review of pressing policy issues followed by a day on Capitol Hill meeting with Members of Congress and their staff.

APRIL

Spring Refresher Course

April 23-25, 2010

Westin Michigan Avenue, Chicago

The ASTRO Spring Refresher Course is designed to update the practicing radiation oncologist, medical physicist and resident-in-training by reviewing a specific topic or field. The program provides attendees with the current management of malignancies most encountered within radiation oncology. Presentations by national experts will provide the registrant with an overview of information and material that can be used in daily applications.

MAY

Current State of the Art Techniques for IMRT, IGRT and SBRT

May 14-16, 2010

The Fairmont, Dallas

This unique program offers the opportunity to acquire crucial clinical education for medical professionals involved in the delivery of IMRT, IGRT and SBRT. Attendees will receive the latest information on techniques used in the adaptation of IMRT, IGRT and SBRT that the successful clinician needs to review and decide on criteria such as patient selection, immobilization options, set-up uncertainties, multimodality imaging, image registration, motion evaluation and management, quality assurance, and correction strategies.

OCTOBER

BREAST CANCER SYMPOSIUM

Integrating Emerging Science into Clinical Practice

October 1-3, 2010

Gaylord National Resort and Conference Center, National Harbor, Md.

The 2010 Breast Cancer Symposium is a unique meeting devoted to multidisciplinary breast cancer research and treatment. Designed as a discussion-based meeting, the symposium will highlight clinically relevant and translational science with supporting educational sessions to ultimately impact breast cancer therapy and patient care. *The symposium is co-sponsored by ASBD, American Society of Breast Surgeons, ASCO, ASTRO, NCBC and SSO.*

Visit www.breastcasympodium.org for additional information.

OCTOBER/NOVEMBER

ASTRO'S 52nd ANNUAL MEETING

October 31- November 4, 2010

**San Diego Convention Center,
San Diego**

DECEMBER

Multidisciplinary Symposium in Thoracic Oncology

December 9-11, 2010

Hilton Chicago, Chicago

The 2010 Chicago Multidisciplinary Symposium in Thoracic Oncology will offer valuable information on the interdisciplinary approach in the treatment of thoracic malignancies. Research shows that a combination of therapies can improve patient outcomes by reducing side effects and improving survival rates. Speakers will address a variety of strategies to treat lung and esophageal cancer, malignant mesothelioma and metastatic cancers of the chest. Recognized leaders in these areas will present the latest developments in basic and clinical research and examine new innovative treatments that could be beneficial to patients. *The symposium is co-sponsored by ASCO, ASTRO, IASLC and the University of Chicago.*
